Dear Brandon Perez,

**Congratulations! You have been admitted to the University of Colorado Denver in the Computer Science program. You are part of a select group that we are inviting to become members of our Lynx community.**

When you attend CU Denver, you will experience a world of possibilities — a world of diverse thinking, vibrant perspectives, and premier education. As the only public urban research university in the state of Colorado, we believe every learner should receive a high-quality education that will help them achieve and succeed in their personal and professional goals. We will be here for you every step along the way to help guide you toward that success, defined on your terms. We welcome and celebrate the diversity of experiences and perspectives each student brings to our inclusive community.

Thanks to our proximity to downtown Denver, you will find unmatched opportunities at your fingertips. Our world-class faculty work alongside professionals throughout the Mile High City and can connect you to career-advancing internships and experiential learning opportunities.

Our dynamic campus speaks for itself. I highly encourage you to schedule an in-person visit or explore our virtual tour for a preview of our welcoming campus community. You can access this and so much more in your Application Status Portal ([application.admissions.ucdenver.edu/apply/status](https://application.admissions.ucdenver.edu/apply/status)). Visit this personalized dashboard to get more details on your admittance, learn about resources available, and embark on your journey as a Lynx.

If you have any questions and want to speak with an admissions counselor, please call 303.315.2601 or email [admissions@ucdenver.edu](mailto:admissions@ucdenver.edu).

I think you would thrive at CU Denver. We are committed to supporting you during your first year through graduation and beyond. We are thrilled to champion your growth, success, and the differences you will make in the world.

Sincerely,

A handwritten signature in cursive script that reads "Ashley Weatherspoon".
